

Science-Technology Park Niš – visit

Academician Mahouton Norbert Hounkonnou, President of the Network of African Scientific Academies , NASAC, visited the Science and Technology Park in Nis on July 28th, 2021 together with Professor Melanija Mitrovic, the Head of the Center for Applied Mathematics at the Faculty of Mechanical Engineering in Niš, **CAM-FMEN**.

During the visit, and after the presentation of the NTP by the management, Academician Hounkonnou introduced the leaders of the NTP to a similar institution - SEME CITY - located in Cotonou, Benin. Among other things, he talked with the representatives of NTP member companies as well as with the NTP management about the possibility of establishing cooperation through the implementation of certain projects and the joint appearance of our companies on the African market.

Speaking about the exceptional two-year scientific cooperation between CAM-FMEN and the International Chair in Mathematical Physics and Applications (ICMPA - UNESCO Chair), a renowned higher education institution, which President is he, Academician Hounkonnou announced a joint hybrid international conference on *Classical&Constructive Semigroups and Applications ACaCS 2021*. From 6 to 10 September 2021, an international team of experts will talk about current and future directions of algebraic structure development as well as their applications in other mathematical disciplines, in informatics and computer science, cognitive sciences, linguistics, social and natural sciences. The conference will be held at the Faculty of Mechanical Engineering in Niš.
